SANDEEP KUMAR SINGH

Staff Software Engineer

sandeepkrs@outlook.com | +91 90244 23416 | +66 95 412 4730 | LinkedIn | GitHub

SUMMARY

Staff Software Engineer with **10+ years** of experience designing distributed systems and cloud-native platforms across fintech, SaaS, and adtech. Expertise in **event-driven architecture, microservices, and platform engineering**.

EXPERIENCE

Honest **2023 – Present**

Staff Software Engineer | Fintech Bangkok, Thailand

- Defined technical strategy and led architecture for an in-app savings product in partnership with a major local bank, contributing to **35% user growth**.
- Architected and led delivery of an event-driven rewards and cashback platform serving **1M+ active users**, improving engagement and processing 37M+ rewards event monthly.
- Designed a fraud prevention and KYC platform integrating VIDA's database verification and liveness checks with in-app video verification, strengthening identity assurance and reducing onboarding friction by **40%**.
- Led end-to-end architecture and development of **QRIS QR payments** at Honest, doubling the user base and tripling payment adoption through scalable payment infrastructure.
- Shaped engineering practices through senior-level hiring, mentoring, technical interviews, coding standards, architecture reviews, and cross-team collaboration.

Skypoint AI **2021 – 2023**

Lead Engineer, Platform | B2B SaaS Bengaluru, India

- Architected real-time logging, alerting, and notification infrastructure using **Azure Service Bus, Event Grid, and Pub/Sub**, enabling tenant-level usage metering and usage-based pricing for enterprise customers.
- Owned platform reliability for the Data Studio product and redesigned **Cosmos DB** data models and access patterns, reducing average API response time by **80%**.
- Led architecture and implementation of a **Salesforce CRM integration** using Azure Durable Functions, improving integration performance by **85%** and enabling a key enterprise sales segment.
- Designed and implemented **BYOS (Bring Your Own Storage)** with a zero-trust security model, enabling enterprise data-residency requirements and expanding the addressable market.
- Integrated a Help & Support platform into Studio, improving **CSAT by 30%** and streamlining Tier-1 support workflows.

Cornerstone OnDemand **2020 – 2021**

Senior Software Engineer | HRTech Bengaluru, India

- Led decomposition of a training monolith into **AWS-based microservices using Domain-Driven Design**, improving deployment independence and team velocity.
- Designed and implemented asynchronous APIs for bulk user registration and roster updates, eliminating **90% of manual operational work** and enabling HR-admin self-service.
- Improved notification-system throughput by **40%** through strategic caching and database stored-procedure optimization.

DeltaX **2016 – 2020**

Product Engineer, Full-Stack | AdTech Bengaluru, India

- Redesigned the ad-tracking data pipeline using micro-batching, achieving **8-minute near-real-time processing** at scale.
- Architected a multi-touch attribution model that reduced wasted advertising spend by **35%** for enterprise customers, directly improving campaign ROI.
- Integrated **Safari Intelligent Tracking Prevention (ITP)** capabilities, protecting **18% of attribution revenue** exposed to browser privacy changes.
- Developed an RBA-based campaign automation and real-time alerting system, increasing **CSAT by 30%** and data accessibility by **20%**.

TECHNICAL SKILLS

Architecture: Distributed Systems, Event-Driven Architecture, Microservices, Domain-Driven Design, Platform Engineering
Cloud & Platform: AWS, Azure, GCP, Kubernetes, Docker, Terraform, Helm, GitOps, ArgoCD, GitHub Actions
Languages: Go, C#, SQL
Data & Messaging: Kafka, Azure Service Bus, GCP Pub/Sub, Cosmos DB, SQL Server, Elasticsearch, Redis
APIs & Observability: REST, GraphQL, Grafana, Prometheus, PagerDuty

CERTIFICATIONS & EDUCATION

Certifications: AWS Certified Developer – Associate · Microsoft Azure Developer Associate · Azure Cosmos DB Developer Specialty
Education: B.Tech in Computer Science, University College of Engineering, Kota 2016
